## Bolts

SIZE: M2 - M24  
 LENGTH: 3MM - 180MM  
 MATERIAL:  
 CARBON STEEL / STAINLESS STEEL /  
 COPPER / BRASS / ALUMINIUM

## Nuts

SIZE: M4 - M30  
 MATERIAL:  
 CARBON STEEL / STAINLESS STEEL /  
 COPPER / BRASS / ALUMINIUM

## C-Parts

## Washers

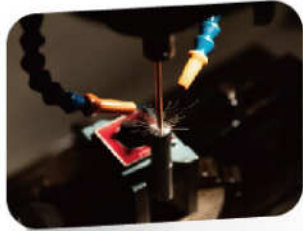

## Raw Material

### RAW MATERIAL

Strategy of maintaining a big inventory of the premium Cold Heading Quality (CHQ) wires subject to several material grades and specifications.

TRACEABILITY

### TOOLING

Well-organized tooling room and accurate tooling made of high-speed steels and carbides subject to nanotechnology coating for increasing the production performance.

FLEXIBILITY

### MACHINING

A large fleet of multifunctional secondary machines subject to the secondary operations for supporting the client's diverse needs.

DIVERSITY

### COLD FORMING

A large fleet of multi-station cold forming machines to serve a wide range of fasteners and special cold forged parts including innovative process monitoring technology for production control and data.

PROCESS MONITORING

### THREAD ROLLING

A large fleet of thread rolling machines for producing all types of threads as well as the licensed threads such as MATHread® and MATpoint®.

LICENSED THREADS

### HEAT TREATMENT

In-house continuous heat treatment lines fully compliant with CQI-9 requirements in order to ensure the product stability as part of our strict process control.

CQI-9

### QUALITY CONTROL

Equipped with fully automatic optical sorting machines and Eddy current machines with laser in order to ensure the quality of our production process.

GUARANTEE

### FINAL INSPECTION

Our laboratories are equipped with up-to-date inspection equipment for performing a wide range of tests in order to ensure the quality of our fasteners.

RELIABILITY

### LOGISTICS

Maintain the safety stocks and commit with the flexibility on the delivery and mixing products according to the client's needs through EDI based upon daily milkrun to the customers.

EFFICIENCY
